

## 2022 ANNUAL SUMMARY REPORT CROSS CONNECTION & BACKFLOW PREVENTION

WS Name and PWS ID#: BOARDMAN, CITY OF, 41-0	0130 Submitted: 02/22/23	_Submitted: 02/22/23 10:46 AM	
System Size: Large System, 300+ connections			
ASR Contact Information: (if there are questions about the A Name: Luis	1SR who should we contact?)		
Email:	Phone #:		
<b>Customer Base</b> Who does your water system serve? Count with and without a backflow assembly.	each service connection only once, include connec	ctions	
How many residential connections are in your water system?	933		
How many high hazard connections in your water system?	36		
How many other types of connections not listed above?	79		
Was your enabling authority revised within the last year? This section is for Large Systems only (300+ connection Certified Cross Connection Specialist Information:			
Luis Campos			
Name:       Luis Campos         Name:       camposl@cityofboardman.com         Email Address:		2	
Does your water system have a current written <b>backflow prev</b>		Yes	
Does the <b>backflow prevention plan</b> include the following:			
1. A list of premises where health hazard cross connections of	exist, including, but not limited to, those listed	Yes	
in Table 42 (High Hazard Table).		Yes	
2. Procedure for continually evaluating the degree of hazard	· · ·		
3. Procedure for notifying the water user if a non-health haza informing the water user of any corrective action required	ard or health hazard is identified and for		
4. The type of protection required to prevent backflow into the public water supply, commensurate with the		Yes	
degree of hazard that exists on the water user's premises.	1.		
5. A description of what corrective actions will be taken if a	l. he public water supply, commensurate with the	Yes	
suppliers areas connection control requirements	l. he public water supply, commensurate with the	Yes	
<ul><li>suppliers cross connection control requirements.</li><li>6. Current records of approved backflow prevention assemblic</li></ul>	l. he public water supply, commensurate with the water user fails to comply with the water	Yes Yes	
<ul><li>suppliers cross connection control requirements.</li><li>6. Current records of approved backflow prevention assembly and verification of current backflow assembly tester certification</li></ul>	<ul> <li>he public water supply, commensurate with the water user fails to comply with the water ies installed, inspections completed, test results,</li> </ul>	Yes Yes Yes Yes Yes	

## **Assembly Data**

Reduced Pressure Backflow Prevention Assemblies (RP, RPBA, & RPDA)			
Are there any RPs installed in your water system? Yes			
How many assemblies are installed in your water system?	36		
How many assemblies were tested?	20		
How many assemblies passed their annual test?	19		
How many assemblies failed their annual test?	1		
Comments: Lack of time to focus on the CCS progra	am and man power		

## Double Check Backflow Prevention Assemblies (DC, DCVA, & DCDA)

Are there any DCs installed in your water system? Yes	
How many assemblies are installed in your water system?	139
How many assemblies were tested?	66
How many assemblies passed their annual test?	66
How many assemblies failed their annual test?	0
Lack of time to focus on the CCS progr	ram and man power

## Pressure Vacuum Breaker Assemblies (PVB, PVBA, & SVBA)

Are there any PVBs installed in your water system?		
How many assemblies are installed in your water system?	14	
How many assemblies were tested?	9	
How many assemblies passed their annual test?	9	
How many assemblies failed their annual test?	0	
Lack of time to focus on the CCS progr	am and man po	wer
