

**2021 ANNUAL SUMMARY REPORT  
CROSS CONNECTION & BACKFLOW PREVENTION**

Please fill out the Annual Summary Report accurately and completely with **data from 2021**. Keep a completed copy for your records.

**PLEASE ANSWER ALL QUESTIONS. INCOMPLETE REPORTS WILL DELAY PROCESSING.**

Return completed reports by **March 31, 2022**

Email: [cross.connection@dhsosha.state.or.us](mailto:cross.connection@dhsosha.state.or.us), Fax: 971-673-0694

Mail: DWS-Cross Connection; 800 NE Oregon Street, Suite 640; Portland, OR 97293

1. **Water System Name:** Guptil Subdivision **PWS ID#** 41-00602

2. **What size is your water system?**  Small (1-299 connections)  Large (300+ connections)

3. **ASR Contact Information:** *(if there are questions about the ASR who should we contact?)*

Name: Debra Hallmark

Email: dhallmark1@outlook.com

Phone #: 541-680-8640

4. **Customer Base:** Who does your water system serve? Count each service connection only once, include connections with and without a backflow assembly.

a. Do you have any residential connections in your water system?  Yes  No How many: 21

b. Do you have any high hazard connections in your water system?  Yes  No How many: none

c. Do you have any other types of connections not listed above?  Yes  No How many: none

Comments: \_\_\_\_\_

5. An **enabling authority** is required for all community water systems. The enabling authority allows for a water system to discontinue service for various reasons. A sample enabling authority is available for small water systems on our website: [www.healthoregon.org/crossconnection](http://www.healthoregon.org/crossconnection). If you have not submitted an enabling authority to the State, please complete one and submit it as soon as possible.

6. **Does your water system have an enabling authority?**  Yes  No (see note above)

7. **Was your enabling authority revised within the last year?**

Yes, email a copy to the Cross Connection program [cross.connection@state.or.us](mailto:cross.connection@state.or.us)  No

**QUESTIONS 8 - 10** are for **LARGE SYSTEMS ONLY** (Large = 300+ Service Connections) and are specific to the required **written backflow prevention program plan** outlined in [OAR 333-061-0070\(9\)\(b\)](#)

**8. Certified Cross Connection Specialist Information:**

Water system Employee       Contracted service  
 Name: \_\_\_\_\_ Cert #: \_\_\_\_\_  
 Email Address: \_\_\_\_\_  
 Phone #: \_\_\_\_\_ Alt Phone #: \_\_\_\_\_

9. Does your water system have a current **written backflow prevention program plan**?       Yes  No

10. Does the **backflow prevention plan** include the following:

- a. A list of premises where health hazard cross connections exist, including, but not limited to, those listed in Table 42.       Yes  No
- b. Procedure for continually evaluating the degree of hazard posed by a water users premises.       Yes  No
- c. Procedure for notifying the water user if a non-health hazard or health hazard is identified, and for informing the water user of any corrective action required.       Yes  No
- d. The type of protection required to prevent backflow into the public water supply, commensurate with the degree of hazard that exists on the water user's premises.       Yes  No
- e. A description of what corrective actions will be taken if a water user fails to comply with the water suppliers cross connection control requirements.       Yes  No
- f. Current records of approved backflow prevention assemblies installed:       Yes  No
  - i. inspections completed,       Yes  No
  - ii. backflow prevention assembly test results on backflow prevention assemblies,       Yes  No
  - iii. verification of current backflow assembly tester certification       Yes  No
- g. A public education program about cross connection control.       Yes  No

11. Are there any backflow assemblies or devices installed in your water system?       Yes  No

12. Do you have any **Reduced Pressure Backflow Prevention Assemblies** (RP, RPBA, & RPDA) installed in your water system?       Yes  No      *(if you answered yes, answer the questions below)*

- a. How many assemblies are installed in your water system? \_\_\_\_\_
- b. How many assemblies were tested? \_\_\_\_\_
- c. How many assemblies passed their annual test? \_\_\_\_\_
- d. How many assemblies failed their annual test? \_\_\_\_\_

Consumer Confidence Report  
Guptil Subdivision Water System  
(public water system # 41000602)  
P.O. Box 21 (62 N. Riverton Ct.)  
October 2021

Dear Shareholders and/or Water Users,

This report is is to inform you of your drinking water quality. Our goal is to provide a safe and dependable supply of drinking water by meeting all State and Federal regulations. Our water source is a 120 ft. well, drawn from an aquifer, which is located at 21 N. Riverton Ct.

Monthly tests are done for total coliforms. Since our last report letter, there were 4 positive test results: May 6&26,2019, and June 4&30,2020. Corrective measures were taken and subsequent tests all passed, these four being the only fails thru the present time. Coliform bacteria are usually harmless, but their presence can be an indication of disease causing bacteria. The followup testing on positive coliform presence showed no other bacteria present.

Guptil Water System monitors water according to State and Federal laws. As water travels over the land and underground, it can pick up various contaminants. All drinking water, including bottled water, may be reasonably expected to contain at least a small amount of some contaminants, which would not necessarily pose a health risk. For those those with compromised immune systems or other health concerns can get more info on contaminates and potential health risks by calling the Environmental Protection Agency's Safe drinking Hotline at 1-800-426-4791.

On checking with WaterLab Co. (the ones that do our monitoring) we have one test for nitrates due before the end of the year. We test for a number of chemicals and substances when due, and have been within allowed limits with all past testing.

We ( property owners) are needing to schedule a board meeting to review the business of the water system, elect new board members and discuss any matters of concern. Normally the meetings are held every other year, but due to extenuating circumstances, we are overdue. Any suggestions for scheduling a meeting time can be directed to Bob Seidler (541-994-3223), System President, or Debi Hallmark(541-680-8640), Secretary-Treasurer.

Thank you, Walt Schroeder, former Operator of Record
