

**41-00262****AN ORDINANCE PROVIDING RULES AND REGULATIONS FOR CONTROLLING AND ELIMINATING CROSS CONNECTIONS AND PREVENTING AND ELIMINATING CONTAMINATIONS OR POLLUTION OF THE CITY WATER SUPPLY AND DECLARING AN EMERGENCY**

**THE CITY OF DUNDEE DOES ORDAIN AS FOLLOWS:**

**SECTION 1. POTENTIAL CONTAMINATION OF CITY WATER SUPPLY:** It is unlawful for the owner of property or the user of City Water to introduce or permit the introduction of pollution or contamination of any kind, from any system or device, into the City water supply system. Whenever cross-connection to other water supply into the City system is found or whenever any other condition, any system or device, including sprinkler systems, is found which presents the possibility of contamination or pollution, the water supply to such premises and/or other premises from which cross-connection is made shall be discontinued immediately until the cross-connection is eliminated or the condition remedied. The control or elimination of cross-connections shall be in accordance with any manuals of standard practice pertaining to cross-connection control approved by the Dundee Public Works Department (Department), and any requirements set forth by the "U.S. Environmental Protection Agency" as authorized by the "Safe Drinking Water Act" PL 93-523 and subsequent applicable legislation. The Department shall require a backflow prevention device of pattern, design, and size which it approves as reasonably adequate to prevent contamination, if the Department determines that a complete physical separation from the City water system is not practicable or necessary, or that adequate inspection for cross-connection cannot readily be made, or that such backflow prevention device is necessary because of existing or possible backflow resulting from special conditions, use or equipment. The Department shall also regulate the location, installation, and testing of such device. Any corrective measure, disconnection or change on private property shall be at the sole expense of the person in control of such property. The cost of any change required in the City system outside the property or between the meter and the supply line or distribution system and any charges for cut-off or disconnection shall be added to the charges for water against the premises necessitating the expenditures.

**SECTION 2. INSPECTION FEE:** There shall be an inspection fee of twenty dollars (\$20.00) for each device or condition to be inspected by the Dundee Public Works Department.

**SECTION 3. PENALTY:** Any person, firm or corporation or any agent or employee of any person, firm or corporation violating the provisions of this ordinance shall, upon conviction thereof in the municipal court in the city of Dundee, be punished by a fine of not less than the sum of fifty dollars (\$50.00) nor more than the maximum provided for in the Charter of the City of Dundee, Oregon.

///

**SECTION 4. EMERGENCY CLAUSE:** The council desires and deems it necessary for the preservation of the health, peace and safety of the city of Dundee that this ordinance take effect at once; and, therefore, an emergency is hereby declared to exist; and this ordinance shall be in full force and effect from and after its passage and approval.

Passes by the council this 7<sup>th</sup> day of August, 1995.
