

ENABLING AUTHORITY
TIERRA DEL MAR WATER CO

Received
March 6 2023
Cross Connection

Water System Name: Tierra Del Mar Water Co
26600 Sandlake Rd, Cloverdale, OR 97112

Water System PSID: 41-00610

Revised Date: March 6, 2023

PURPOSE:

The purpose of the Enabling Authority is to protect the health of the people served by this water system by preventing contaminants from flowing backwards into the water supply. To accomplish this, these rules are in compliance with Oregon Administrative Rules (OARs) 333-061-0070 through 333-061-0074.

REQUIREMENTS:

Actual or potential cross connections are prohibited. If a potential exists for a cross-connection the water system must be protected by an appropriate device or assembly.

ENFORCEMENT:

The water system has the right to refuse or terminate service to any customer who does not:

- Install a backflow device or assembly when a potential or actual cross connection exists
- Test the assembly at least annually and complete all necessary repair.

The water system reserves the right to require back-flow devices at the customers side of the meter if access is not allowed to determine if a backflow or assembly is required

The water system will allow a reasonable time to achieve compliance with the rules. Should a backflow incident occur, the water system has the right to terminate service immediately and restore it only after compliance.

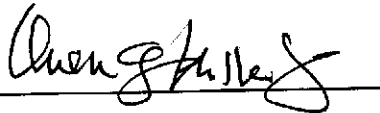

A list of all high hazard connections and how they are protected from cross connection is attached to this Enabling Authority

This Enabling Authority is approved and adopted and will remain in effect as of this date until such time as revised or eliminated.
