**Re: Faraday Hills No. 6 (PR#143-2022)
City of Estacada (PWS ID#00279)
Conditional Approval**

Dear Steve:

Thank you for your submittal to the Oregon Health Authority's Drinking Water Services (DWS) of plan review information for Faraday Hills No. 6 for the City of Estacada. On September 23, 2022, our office received a City Council findings and conditions document, a land use compatibility statement, sanitary plans, water plans and a transmittal submittal. On September 27, 2022, our office received a plan review fee of \$3,300.

The project includes connecting existing 8" C900 PVC water lines that are part of Faraday Hills Phase No. 1 to the main distribution line and installing the service connections to the properties along the length of that pipe.

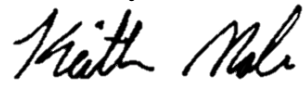

The plans are approved with the following conditions:

- The design must allow for 20 psi to be maintained at all service meters.

Until we receive verification that the conditions have been met and final approval has been issued, Faraday Hills No. 6 is not approved for use. Upon completion of the project, the engineer must verify in writing that construction was completed according to the submitted plans. If substantial changes are made, a set of as-built drawings must be submitted. Documentation demonstrating how the above conditions were met should reference Plan Review #143-2022 and can be emailed to me at keith.male@dhsosha.state.or.us.

If you have any questions, please feel free to call me at (503) 939-1322.

Sincerely,

A handwritten signature in black ink that reads "Keith Male". The signature is written in a cursive, flowing style.

Keith Male, EIT
Regional Engineer
Drinking Water Services
