Customer Base Who does your water system serve? Count each service connection only once, include connections with and without a backflow assembly.

| How many high hazard connections in your water system? 2 | |
|---|--|
| How many other types of connections not listed above? 0 | |

Enabling Authority An <u>enabling authority</u> is required for all community water systems. The enabling authority allows for a water system to discontinue service for various reasons. A sample enabling authority is available for small water systems on our website: <u>www.healthoregon.org/crossconnection</u>. If you have not submitted an enabling authority to the State, please complete one and submit it as soon as possible.

Does your water system have an <u>enabling authority?</u> Yes

Was your enabling authority revised within the last year? No

This section is for Large Systems only (300+ connections)
