Doe	es your water system have a current written backflow prev	vention program plan?	
Doe	es the backflow prevention plan include the following:		
1. 2.	A list of premises where health hazard cross connections in Table 42 (High Hazard Table). Procedure for continually evaluating the degree of hazard	-	
3.	Procedure for notifying the water user if a non-health haz informing the water user of any corrective action require	ard or health hazard is id	
4.	The type of protection required to prevent backflow into t degree of hazard that exists on the water user's premises.		commensurate with the
5.	A description of what corrective actions will be taken if a suppliers cross connection control requirements.	water user fails to compl	ly with the water
6.	Current records of approved backflow prevention assemb and verification of current backflow assembly tester certification	-	completed, test results,

7. A public education program about cross connection control.

Assembly Data

educed Pressure Backflow Prevention Assemblies (RP, RPBA, & RPDA)		
Are there any RPs installed in your water system? No		
How many assemblies are installed in your water system?		
How many assemblies were tested?		
How many assemblies passed their annual test?		
How many assemblies failed their annual test?		
Comments:		

Double Check Backflow Prevention Assemblies (DC, DCVA, & DCDA)

Are there any DCs installed in your water system? Yes	
How many assemblies are installed in your water system?	5
How many assemblies were tested?	5
•	5
How many assemblies passed their annual test?	-1
How many assemblies failed their annual test?	·
Comments:	

Pressure Vacuum Breaker Assemblies (PVB, PVBA, & SVBA)

Are there any PVBs installed in your water system? Yes		
How many assemblies are installed in your water system?	1	
How many assemblies were tested?	0	
How many assemblies passed their annual test?	1	
How many assemblies failed their annual test?	-1
