Customer Base

Who does your water system serve? **Count each service connection only once**, include connections with and without a backflow assembly.

262

20

242

Number of **residential connections** in your water system: Number of any **high hazard connections** in your water system: Number of **other types of connections** not listed above: **Total number of service connections:**

An **enabling authority** is required for all community water systems. The enabling authority allows for a water system to discontinue service for various reasons. A sample enabling authority is available for small water systems on our website: <u>www.healthoregon.org/crossconnection</u>. If you have not submitted an enabling authority to the State, please complete one and submit it as soon as possible.

Does your water system have an <u>enabling authority</u>? Yes Was your enabling authority revised within the last year? No

This section is for LARGE SYSTEMS ONLY (Large = 300+ Service Connections)

Does your WS have a current written backflow prevention program plan? Does the <u>backflow prevention plan</u> **include the following:**

- 1. A list of premises where health hazard cross connections exist, including, but not limited to, those listed in Table 42 (High Hazard Table).
- 2. Procedure for continually evaluating the degree of hazard posed by a water users premises.
- 3. Procedure for notifying the water user if a non-health hazard or health hazard is identified, and for informing the water user of any corrective action required.
- 4. The type of protection required to prevent backflow into the public water supply, commensurate with the degree of hazard that exists on the water user's premises.
- 5. A description of what corrective actions will be taken if a water user fails to comply with the water suppliers cross connection control requirements.
- 6. Current records of approved backflow prevention assemblies installed, inspections completed, test results, and verification of current backflow assembly tester certification.
- 7. A public education program about cross connection control.
