	your water system have a current written backflow pre- the backflow prevention plan include the following:	vention program plan?
	A list of premises where health hazard cross connections in Table 42 (High Hazard Table).	exist, including, but not limited to, those listed
3. I		
	The type of protection required to prevent backflow into the public water supply, commensurate with the degree of hazard that exists on the water user's premises.	
S	A description of what corrective actions will be taken if a water user fails to comply with the water suppliers cross connection control requirements.	
	Current records of approved backflow prevention assemble and verification of current backflow assembly tester certification.	
7.	7. A public education program about cross connection control.	

## **Assembly Data**

Reduced Pressure Backflow Prevention Assemblies (RI	P, RPBA, & RPDA)
Are there any RPs installed in your water system? Yes	
How many assemblies are installed in your water system?	1
How many assemblies were tested?	1
How many assemblies passed their annual test?	0
How many assemblies failed their annual test?	-2
Comments:	
Double Check Backflow Prevention Assemblies (DC, D	CVA, & DCDA)
Are there any DCs installed in your water system? Yes	
How many assemblies are installed in your water system?	3
How many assemblies were tested?	3
How many assemblies passed their annual test?	2
How many assemblies failed their annual test?	0
Comments:	
Pressure Vacuum Breaker Assemblies (PVB, PVBA, &	SVBA)
Are there any PVBs installed in your water system? Yes	
How many assemblies are installed in your water system?	
How many assemblies were tested?	<u>0</u>
How many assemblies passed their annual test?	0
How many assemblies failed their annual test?	0
