- 4. Customer Base: Who does your water system serve? Count each service connection only once, include connections with and without a backflow assembly.
 - a. Do you have any residential connections in your water system?
 - b. Do you have any high hazard connections in your water system?
 - c. Do you have any other types of connections not listed above?

Comments:

Yes No How many: 170 Yes No How many: 4 Yes No How many: 18

5. An enabling authority is required for all community water systems. The enabling authority allows for a water system to discontinue service for various reasons. A sample enabling authority is available for small water systems on our website: www.healthoregon.org/crossconnection. If you have not submitted an

enabling authority to the State, please complete one and submit it as soon as possible.

- 6. Does your water system have an <u>enabling authority</u>? Yes No (see note above)
- 7. Was your enabling authority revised within the last year? Yes, email a copy to the cross connection program cross.connection@dhsoha.state.or.us No No

13. Do you have any Double Check Backflow Prevention Assemblies (DC, DCVA, & DCDA) installed in your water

system? 🔳 Yes 🗌 No (if you answered yes, answer the questions below)

- a. How many assemblies are installed in your water system?
- How many assemblies were tested? **b**.
- How many assemblies passed their annual test? C.
- đ. How many assemblies failed their annual test?
 - * We had contracted to a backflow tester to test all assemblies back in Sept 2019. He turned in an invoice on
- Comments: Jan 17, 2020. It was after I had paid him that I noticed that only 69% of the test were completed and that they e. were done in the first week of Jan. 2020. We have notified him that his services will not longer be needed and we will make sure we get 100% of the tests done for the 2020 ASR. Thank you

14. Do you have any Pressure Vacuum Breaker Assemblies (PVB, PVBA, & SVBA) installed in your water system?

Yes No (if you answered yes, answer the questions below)

- How many assemblies are installed in your water system? a. –
- b. How many assemblies were tested?
- How many assemblies passed their annual test? С.
- d. How many assemblies failed their annual test?
