Yes Does your water system have a current written backflow prevention program plan? Does the **backflow prevention plan** include the following: Yes 1. A list of premises where health hazard cross connections exist, including, but not limited to, those listed in Table 42 (High Hazard Table). Yes 2. Procedure for continually evaluating the degree of hazard posed by a water users premises. 3. Procedure for notifying the water user if a non-health hazard or health hazard is identified, and for Yes informing the water user of any corrective action required. 4. The type of protection required to prevent backflow into the public water supply, commensurate with the Yes degree of hazard that exists on the water user's premises. 5. A description of what corrective actions will be taken if a water user fails to comply with the water Yes suppliers cross connection control requirements. Yes 6. Current records of approved backflow prevention assemblies installed, inspections completed, test results, and verification of current backflow assembly tester certification. Yes

7. A public education program about cross connection control.

Assembly Data

Reduced Pressure Backflow Prevention Assemblies (RP, RPBA, & RPDA)

Are there any RPs installed in your water system? Yes	
How many assemblies are installed in your water system?	7494
How many assemblies were tested?	6421
How many assemblies passed their annual test?	6015
How many assemblies failed their annual test?	406
Comments:	

Double Check Backflow Prevention Assemblies (DC, DCVA, & DCDA)

Are there any DCs installed in your water system? Yes	
How many assemblies are installed in your water system?	15864
How many assemblies were tested?	13440
How many assemblies passed their annual test?	13036
How many assemblies failed their annual test?	393
Comments:	

Pressure Vacuum Breaker Assemblies (PVB, PVBA, & SVBA)

Are there any PVBs installed in your water system?
