Does your water system have a current <u>written backflow</u> Does the <u>backflow prevention plan</u> include the following	prevention program plan.	'es
 A list of premises where health hazard cross contitude those listed in Table 42 (High Hazard Table). Procedure for continually evaluating the degree of 	nections exist, including, but not limited to, of hazard posed by a water users premises.	es
3. Procedure for notifying the water user if a non-hor for informing the water user of any corrective act		'es
4. The type of protection required to prevent backfl with the degree of hazard that exists on the water	ow into the public water supply, commensurate	'es
5. A description of what corrective actions will be t	_ ·	'os
water suppliers cross connection control requirer6. Current records of approved backflow prevention		'es
test results, and verification of current backflow	= = = = = = = = = = = = = = = = = = = =	'es
7. A public education program about cross connecti	•	es

2021 Assembly Data

Reduced Pressure Backflow Prevention Assemblies (RI	P, RPBA, & RPDA)
Are there any RPs installed in your water system?	Yes
How many assemblies are installed in your water system?	149
How many assemblies were tested?	127
How many assemblies passed their annual test?	118
How many assemblies failed their annual test?	3
Comments:	
5 of the rp's that failed were rep	paired and passed at a later date.
Double Check Backflow Prevention Assemblies (DC, D	OCVA, & DCDA)
Are there any DCs installed in your water system?	Yes
How many assemblies are installed in your water system?	854
How many assemblies were tested?	778
How many assemblies passed their annual test?	758
How many assemblies failed their annual test?	12
Comments:	
8 DC's that failed were repaire Pressure Vacuum Breaker Assemblies (PVB, PVBA, &	red and passed at a later date.
