

**2020 ANNUAL SUMMARY REPORT
CROSS CONNECTION & BACKFLOW PREVENTION**

Received
Feb 24 2021
Cross Connection

Please fill out the Annual Summary Report accurately and completely with **data from 2020**. Keep a completed copy for your records.

PLEASE ANSWER ALL QUESTIONS. INCOMPLETE REPORTS WILL DELAY PROCESSING.

Return completed reports by **March 31, 2021**

Email: cross.connection@dhsosha.state.or.us, Fax: 971-673-0694

Mail: DWS-Cross Connection; 800 NE Oregon Street, Suite 640; Portland, OR 97293

1. **Water System Name:** City of Prineville **PWS ID#** 41-00682

2. **What size is your water system?** Small (1-299 connections) Large (300+ connections)

3. **ASR Contact Information:** *(if there are questions about the ASR who should we contact?)*

Name: Pat Goehring

Email: pgoehring@cityofprineville.com

Phone #: 541-447-5627

4. **Customer Base:** Who does your water system serve? Count each service connection only once, include connections with and without a backflow assembly.

a. Do you have any residential connections in your water system? Yes No How many: 3940

b. Do you have any high hazard connections in your water system? Yes No How many: 102

c. Do you have any other types of connections not listed above? Yes No How many: _____

Comments: The numbers are less than last year due to incorrect information in our system when it updated

5. An **enabling authority** is required for all community water systems. The enabling authority allows for a water system to discontinue service for various reasons. A sample enabling authority is available for small water systems on our website: www.healthoregon.org/crossconnection. If you have not submitted an enabling authority to the State, please complete one and submit it as soon as possible.

6. **Does your water system have an enabling authority?** Yes No (see note above)

7. **Was your enabling authority revised within the last year?**

Yes, email a copy to the Cross Connection program cross.connection@state.or.us No

QUESTIONS 8 - 10 are for **LARGE SYSTEMS ONLY** (Large = 300+ Service Connections) and are specific to the required **written backflow prevention program plan** outlined in [OAR 333-061-0070\(9\)\(b\)](#)

8. Certified Cross Connection Specialist Information:

Water system Employee Contracted service

Name: Jacob Ziegler Cert #: 6365

Email Address: jziegler@cityofprineville.com

Phone #: 541-447-5627 Alt Phone #: _____

9. Does your water system have a current **written backflow prevention program plan**? Yes No

10. Does the backflow prevention plan include the following:

a. A list of premises where health hazard cross connections exist, including, but not limited to, those listed in Table 42. Yes No

b. Procedure for continually evaluating the degree of hazard posed by a water users premises. Yes No

c. Procedure for notifying the water user if a non-health hazard or health hazard is identified, and for informing the water user of any corrective action required. Yes No

d. The type of protection required to prevent backflow into the public water supply, commensurate with the degree of hazard that exists on the water user's premises. Yes No

e. A description of what corrective actions will be taken if a water user fails to comply with the water suppliers cross connection control requirements. Yes No

f. Current records of approved backflow prevention assemblies installed: Yes No

 i. inspections completed, Yes No

 ii. backflow prevention assembly test results on backflow prevention assemblies, Yes No

 iii. verification of current backflow assembly tester certification Yes No

g. A public education program about cross connection control. Yes No

11. Are there any backflow assemblies or devices installed in your water system? Yes No

12. Do you have any **Reduced Pressure Backflow Prevention Assemblies** (RP, RPBA, & RPDA) installed in your water system? Yes No *(if you answered yes, answer the questions below)*

a. How many assemblies are installed in your water system? 143

b. How many assemblies were tested? 99

c. How many assemblies passed their annual test? 99

d. How many assemblies failed their annual test? 0

Comments: Our system would not allow us to do send annual compliance letters until after most systems were shut off for the year, we had several not get tested.

13. Do you have any **Double Check Backflow Prevention Assemblies** (DC, DCVA, & DCDA) installed in your water system? Yes No (if you answered yes, answer the questions below)

- | | |
|------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------|
| a. How many assemblies are installed in your water system? | 1487 |
| b. How many assemblies were tested? | 1384 |
| c. How many assemblies passed their annual test? | 1366 |
| d. How many assemblies failed their annual test? | 18 |
| e. Comments: | Again the numbers are different than the previous year due to incorrect data in the system, it has been updated. |

14. Do you have any **Pressure Vacuum Breaker Assemblies** (PVB, PVBA, & SVBA) installed in your water system?

Yes No (if you answered yes, answer the questions below)

- | | |
|------------------------------------------------------------|----|
| a. How many assemblies are installed in your water system? | 10 |
| b. How many assemblies were tested? | 6 |
| c. How many assemblies passed their annual test? | 6 |
| d. How many assemblies failed their annual test? | 0 |
| e. Comments: | |

I certify the information provided is true to the best of my knowledge. Providing false information may result in penalties to the individual and to the water system.
