Customer Base

Who does your water system serve? Count each service connection only once, include connections with and without a backflow assembly.

Table with 2 columns: Description and Count. Rows include residential connections (19), high hazard connections (0), other types of connections (0), and total number of service connections (19).

An enabling authority is required for all community water systems. The enabling authority allows for a water system to discontinue service for various reasons. A sample enabling authority is available for small water systems on our website: www.healthoregon.org/crossconnection. If you have not submitted an enabling authority to the State, please complete one and submit it as soon as possible.

Does your water system have an enabling authority? Yes

Was your enabling authority revised within the last year? No

This section is for LARGE SYSTEMS ONLY (Large = 300+ Service Connections)

Certified Cross Connection Specialist Information:
