Do	es your WS have a current written backflow prevention program plan?es the backflow prevention plan include the following:
1.	A list of premises where health hazard cross connections exist, including, but not limited to, those listed in Table 46 (High Hazard Table).
2.3.	Procedure for continually evaluating the degree of hazard posed by a water users premises. Procedure for notifying the water user if a non-health hazard or health hazard is identified, and for informing the water user of any corrective action required.
4.	The type of protection required to prevent backflow into the public water supply, commensurate with the degree of hazard that exists on the water user's premises.
5.	A description of what corrective actions will be taken if a water user fails to comply with the water suppliers cross connection control requirements.
6. 7	Current records of approved backflow prevention assemblies installed, inspections completed, test results, and verification of current backflow assembly tester certification. A public education program about cross connection control

Assembly Data

Reduced Pressure Backflow Prevention Assemblies (RP,	RPBA, & RPDA)	
Are there any RPs installed in your water system?	Yes	
How many assemblies are installed in your water system?	2	
How many assemblies were tested?	2	
How many assemblies passed their annual test?	2	
How many assemblies failed their annual test?	0	
Comments:		
Double Check Backflow Prevention Assemblies (DC, DC	VA, & DCDA) Yes	
Are there any DCs installed in your water system?	171	
How many assemblies are installed in your water system?	171	
How many assemblies were tested?		
How many assemblies passed their annual test?	<u>171</u>	
How many assemblies failed their annual test?	0	
Comments:		
Pressure Vacuum Breaker Assemblies (PVB, PVBA, & S	VBA)	
Are there any PVBs installed in your water system?	No
