

## 2025 ANNUAL SUMMARY REPORT CROSS CONNECTION & BACKFLOW PREVENTION

**Water System Name & PWS ID#:** WEST HILLS WATER COMPANY, 41-00895

**System Size:** Small System, 1-299 connections

Submitted: 03/30/26 7:16 PM

**ASR Contact Information:** *(if there are questions about the ASR who should we contact?)*

Name: Clyde Wagner

Email: clyde@wagnerwaterworks.com

Phone #: +1 (503) 812-9751

### Customer Base

Who does your water system serve? **Count each service connection only once**, include connections with and without a backflow assembly.

Number of **residential connections** in your water system: 98

Number of any **high hazard connections** in your water system: 6

Number of **other types of connections** not listed above: 0

**Total number of service connections:** 104

An **enabling authority** is required for all community water systems. The enabling authority allows for a water system to discontinue service for various reasons. A sample enabling authority is available for small water systems on our website: [www.healthoregon.org/crossconnection](http://www.healthoregon.org/crossconnection). If you have not submitted an enabling authority to the State, please complete one and submit it as soon as possible.

**Does your water system have an enabling authority?** Yes

**Was your enabling authority revised within the last year?** No

**This section is for LARGE SYSTEMS ONLY** (Large = 300+ Service Connections)

**Certified Cross Connection Specialist Information:**

Name: \_\_\_\_\_ Cert #: \_\_\_\_\_

Email Address: \_\_\_\_\_ Phone #: \_\_\_\_\_

**Does your WS have a current written backflow prevention program plan?** \_\_\_\_\_

**Does the backflow prevention plan include the following:**

1. A list of premises where health hazard cross connections exist, including, but not limited to, those listed in Table 46 (High Hazard Table). \_\_\_\_\_
2. Procedure for continually evaluating the degree of hazard posed by a water users premises. \_\_\_\_\_
3. Procedure for notifying the water user if a non-health hazard or health hazard is identified, and for informing the water user of any corrective action required. \_\_\_\_\_
4. The type of protection required to prevent backflow into the public water supply, commensurate with the degree of hazard that exists on the water user’s premises. \_\_\_\_\_
5. A description of what corrective actions will be taken if a water user fails to comply with the water suppliers cross connection control requirements. \_\_\_\_\_
6. Current records of approved backflow prevention assemblies installed, inspections completed, test results, and verification of current backflow assembly tester certification. \_\_\_\_\_
7. A public education program about cross connection control. \_\_\_\_\_
