

2024 ANNUAL SUMMARY REPORT CROSS CONNECTION & BACKFLOW PREVENTION

System Size: Small System, 1-299 connections Submitted: 01/18/25 12:49 AM ASR Contact Information: (if there are questions about the ASR who should we contact?) Name: Scott Napoli Email: sportsmansparkwater@gmail.com Phone #: +1 (503) 936-7819 Customer Base Who does your water system serve? Count each service connection only once, include connections with and without a backflow assembly. Number of residential connections in your water system: 0 Number of any high hazard connections in your water system: 0 Number of other types of connections not listed above: 0 Total number of service connections: An enabling authority is required for all community water systems. The enabling authority allows for a water system to discontinue service for various reasons. A sample enabling authority is available for small water systems on our website www.healthoregon.org/crossconnection. If you have not submitted an enabling authority to the State, please complete one and submit it as soon as possible. Does your water system have an enabling authority? Yes Was your enabling authority revised within the last year? No This section is for LARGE SYSTEMS ONLY (Large = 300+ Service Connections) Certified Cross Connection Specialist Information: Name:	Wa	ater System Name & PWS ID#: SPORTSMANS PAR	RK WATER ASSN, 41-00910

water suppliers cross connection control requirements.		water suppliers cross connection control requirements.		
 6. Current records of approved backflow prevention assemblies installed, inspections completed, test results, and verification of current backflow assembly tester certification. 7. A public education program about cross connection control. 				

Assembly Data

$\textbf{Reduced Pressure Backflow Prevention Assemblies} \ (RP,$	RPBA, & RPDA)
Are there any RPs installed in your water system?	No
How many assemblies are installed in your water system?	
How many assemblies were tested?	
How many assemblies passed their annual test?	
How many assemblies failed their annual test?	
Comments:	
Double Check Backflow Prevention Assemblies (DC, DC	VA & DCDA)
Are there any DCs installed in your water system?	No
How many assemblies are installed in your water system?	
How many assemblies were tested?	
How many assemblies passed their annual test?	
How many assemblies failed their annual test?	
Comments:	
Pressure Vacuum Breaker Assemblies (PVB, PVBA, & S	VBA)
Are there any PVBs installed in your water system?	No
How many assemblies are installed in your water system?	
How many assemblies were tested?	
How many assemblies passed their annual test?	
How many assemblies failed their annual test?
