2015 Annual Summary Report

Q16: Written Backflow Prevention Program

Does your WS have a current written backflow prevention program plan?	No
Does the plan contain a master list of facilities and premises which are subject to backflow testing?	No
Does the master list of facilities identify high hazards?	No
Is there a separate list of high hazard customers?	No
Do you keep a list of facilities and premises that need yearly testing?	No
Do you take action on facilities and premises that have not completed yearly testing?	No
Comments	our community is served by a septic treatment system that incorporates pumps to process and distribute treated gray water to gravel filter systems and disposal systems. These systems are operated under a WPCF permit and are supervised and tested/inspected by a state certified contractor.

PAGE 7: Your WS Customer Base

Q17: Do you have any residential connections in your water system?	Yes, How Many? 39
