QUESTIONS 8 - 10 are for LARGE SYSTEMS ONLY (Large = 300+ Service Connections)	-
to the required written backflow prevention program plan outlined in OAR 333-061-0070(9)	<u>(b)</u>
8. Certified Cross Connection Specialist Information: Water system Employee Contracted service Name: Cameron Smith Carejunction greath, us Phone #: 541-287-0041 Alt Phone #: 541-592-2156	
9. Does your water system have a current written backflow prevention program plan?	X Yes \(\textbf{N}\) No
10. Does the backflow prevention plan include the following:	
 a. A list of premises where health hazard cross connections exist, including, but not limited to, those listed in Table 42. 	Yes No
 Procedure for continually evaluating the degree of hazard posed by a water users premises. 	Yes No
c. Procedure for notifying the water user if a non-health hazard or health hazard is identified, and for informing the water user of any corrective action required.	Yes No
d. The type of protection required to prevent backflow into the public water supply, commensurate with the degree of hazard that exists on the water user's premises.	Yes No
e. A description of what corrective actions will be taken if a water user fails to comply with the water suppliers cross connection control requirements.	Yes No
 f. Current records of approved backflow prevention assemblies installed: i. inspections completed, ii. backflow prevention assembly test results on backflow prevention assemblies, iii. verification of current backflow assembly tester certification 	Yes No Yes No Yes No Yes No
g. A public education program about cross connection control.	Yes No
11. Are there any backflow assemblies or devices installed in your water system? Yes INo	
12. Do you have any Reduced Pressure Backflow Prevention Assemblies (RP, RPBA, & RPDA) insta	lled in your
water system? Yes No (If you answered yes, answer the questions below)	157
a. How many assemblies are installed in your water system?	127
b. How many assemblies were tested?	120
c. How many assemblies passed their annual test?	120
d. How many assemblies failed their annual test?	
Comments: Assembles not tested are inactive at the All failed Assembles were repaired and passed seco	ind test.

13.	Do	you have any Double Check Backflow Prevention Assemblies (DC, DCVA,	& DCDA) installed in your water
	syst	tem? 🔽 Yes 🗌 No (if you answered yes, answer the questions below)	001
	A,	How many assemblies are installed in your water system?	291
	ь.	How many assemblies were tested?	289
	C,	How many assemblies passed their annual test?	380
	d.	How many assemblies failed their annual test?	9
	e.	Comments: Assemblies not tested are inactive	at the meter.
		All Pailed Assemblies passed second tes	
14.	Do :	you have any Pressure Vacuum Breaker Assemblies (PVB, PVBA, & SVBA	.) installed in your water system?
	A LA	Yes No (If you answered yes, answer the questions below)	
	a.	How many assemblies are installed in your water system?	3
	b.	How many assemblies were tested?	_3
	c.	How many assemblies passed their annual test?	_2
	d.	How many assemblies failed their annual test?	_ 1
	e.	Comments: This failed Assembly passed its	second test.
		y the information provided is true to the best of my knowledge. Providings to the individual and to the water system.	g false information may result in
