Do	pes your WS have a current written backflow pes the backflow prevention plan include the fol	prevention program <b>j</b>	
1.	A list of premises where health hazard cross connections exist, including, but not limited to, those listed in Table 42 (High Hazard Table).		
2.	Procedure for continually evaluating the degree	<u> </u>	•
3.	Procedure for notifying the water user if a non-		n hazard is identified, and
	for informing the water user of any corrective a		
4.	The type of protection required to prevent backflow into the public water supply, commensurate with the degree of hazard that exists on the water user's premises.		
5.	A description of what corrective actions will be taken if a water user fails to comply with the		
	water suppliers cross connection control requirements.		
6.			
_	test results, and verification of current backflow	· · · · · · · · · · · · · · · · · · ·	fication.
7.	A public education program about cross connection	ction control.	

## **Assembly Data** Reduced Pressure Backflow Prevention Assemblies (RP, RPBA, & RPDA) No Are there any RPs installed in your water system?

How many assemblies are installed in your water system?		
How many assemblies were tested?		
How many assemblies passed their annual test?		
How many assemblies failed their annual test?		
Comments:		
<b>Double Check Backflow Prevention Assemblies (DC, DCVA</b>	, & DCDA)	
Are there any DCs installed in your water system?	Yes	
How many assemblies are installed in your water system?	47	
How many assemblies were tested?	46	
How many assemblies passed their annual test?		
How many assemblies failed their annual test?	1	
Comments:		
Pressure Vacuum Breaker Assemblies (PVB, PVBA, & SVB	A)	
Are there any PVBs installed in your water system?	No
