

2023 ANNUAL SUMMARY REPORT CROSS CONNECTION & BACKFLOW PREVENTION

WS Name and PWS ID#: AVION WC - BRASADA RANCH, 41-01506

System Size: Large System, 300+ connections

Submitted:_____03/04/24 8:14 AM

ASR Contact Information: (*if there are questions about the ASR who should we contact?*) Name: KARMAN LEFEBVRE

| Email: KARMAN@AVIONWATER.COM |
|------------------------------|
|------------------------------|

Customer Base Who does your water system serve? Count each service connection only once, include connections with and without a backflow assembly.

Phone #: +1 (541) 325-2958

| How many residential connections are in your water system? | 609 |
|--|-----|
| How many high hazard connections in your water system? | 14 |
| How many other types of connections not listed above? | 46 |

Enabling Authority An <u>enabling authority</u> is required for all community water systems. The enabling authority allows for a water system to discontinue service for various reasons. A sample enabling authority is available for small water systems on our website: <u>www.healthoregon.org/crossconnection</u>. If you have not submitted an enabling authority to the State, please complete one and submit it as soon as possible.

Does your water system have an <u>enabling authority?</u> Yes

Was your enabling authority revised within the last year? No

This section is for Large Systems only (300+ connections)
