

## 2024 ANNUAL SUMMARY REPORT CROSS CONNECTION & BACKFLOW PREVENTION

System Name & PWS 1D#: OLD CHURCH ROAD ESTATES, 41-01516   System Size: Small System, 1-299 connections   Submitted: 03/31/25 7:43 PM	W	ater System Name & PWS ID#: OLD CHURCH R	ROAD ESTATES, 41-01516	
Name:   lody L Anthony	Sys	stem Size: Small System, 1-299 connections	Submitted: 03/31/25 7:43 PM	
Email: joeanthony.nwos@gmail.com Phone #: +1 (541) 990-9835  Customer Base  Who does your water system serve? Count each service connection only once, include connections with and without a backflow assembly.  Number of residential connections in your water system: 21  Number of any high hazard connections in your water system: 0  Number of other types of connections to listed above: 0  Total number of service connections:  An enabling authority is required for all community water systems. The enabling authority allows for a water system to discontinue service for various reasons. A sample enabling authority is available for small water systems on our website www.healthoregon.org/crossconnection. If you have not submitted an enabling authority to the State, please complete one and submit it as soon as possible.  Does your water system have an enabling authority?  Was your enabling authority revised within the last year? No  This section is for LARGE SYSTEMS ONLY (Large = 300+ Service Connections)  Certified Cross Connection Specialist Information:  Name:			about the ASR who should we contact?)
