### **Customer Base**

Who does your water system serve? **Count each service connection only once**, include connections with and without a backflow assembly.

| Number of <b>residential connections</b> in your water system:     | 18 |
|--|----|
| Number of any <b>high hazard connections</b> in your water system: | 0  |
| Number of other types of connections not listed above:             | 0  |
| Total number of service connections:                               |    |

An **enabling authority** is required for all community water systems. The enabling authority allows for a water system to discontinue service for various reasons. A sample enabling authority is available for small water systems on our website: <u>www.healthoregon.org/crossconnection</u>. If you have not submitted an enabling authority to the State, please complete one and submit it as soon as possible.

Does your water system have an <u>enabling authority</u>? Yes Was your enabling authority revised within the last year? No

This section is for LARGE SYSTEMS ONLY (Large = 300+ Service Connections) Certified Cross Connection Specialist Information:
