Pete's Mountain Water Company has at all times mentioned herein owned and operated, and continues to own and operate, the public water system (hereinafter "Water System") serving residences along and near SW Schaeffer Road, southwest of West Linn, Oregon. The Water System is a community public water system serving approximately 250 people and is subject to regulation according to Oregon Revised Statutes 448.115 to 448.290 and Oregon Administrative Rules 333-061-0005 to 333-061-0272.¹

Pete's Mountain Water Company (hereinafter "Water Supplier") is therefore a water supplier as defined in Oregon Revised Statute (ORS) 448.115(12) and Oregon Administrative Rule (OAR) 333-061-0020, and as a water supplier, has specific responsibilities that are identified in OAR 333-061-0025.

Pursuant to its authority established in ORS 431A.010 and ORS 448.255, the Oregon Health Authority, Public Health Division, Center for Health Protection, Drinking Water Services (DWS) has investigated the operation of the Water System.

DWS found, during its investigation that Water Supplier did not report sample results for lead and copper in tap water. Water Supplier has therefore violated the requirements for public water systems and is unable to assure water users that the drinking water is sufficiently free from contaminants such that individuals will not be exposed to disease or harmful physiological effects (ORS 448.115(8)). This represents a potential public health hazard.

This Notice of Violation and Administrative Order (Order) is being issued to Water Supplier for the specific violations of the Oregon Drinking Water Quality Act (ORS 448.115 to ORS 448.290) and rules found during DWS' investigation as described below.

DESCRIPTION OF RULE VIOLATIONS

1. OAR 333-061-0025(1) requires water suppliers to routinely collect and submit water samples for laboratory analyses at the frequencies prescribed by OAR 333-061-0036. OAR 333-061-0036 requires, in part, sampling for lead and copper in tap water, as described in Violation No. 2. Water Supplier did not report sample results to DWS for lead and copper as required, which constitutes a violation of OAR 333-061-0025(1) if samples were in fact not collected.
2. OAR 333-061-0036(10)(a) through (d) requires, in part, water suppliers to monitor for lead and copper in tap water at least once every six months at public water systems, collecting samples from at least 10 sampling locations. Additionally, OAR 333-061-0040(1)(b)(A) requires water suppliers to report monitoring required by OAR 333-061-0036 to DWS within 10 days of the end of the required monitoring period. Water Supplier has not reported monitoring for lead and copper in tap water since reporting samples collected between September 20 and September 28, 2023. This constitutes a violation of OAR 333-061-0036(10) or a violation of OAR 333-061-0040(1)(b)(A) if monitoring was conducted but not reported.

ACTIONS REQUIRED TO ACHIEVE COMPLIANCE

Water Supplier is required to conduct the remedial actions described below which, if taken within the time specified in this Order, will constitute compliance with the rule(s) violated (ORS 448.255(3)).

1. Water Supplier must conduct monitoring for lead and copper in tap water according to all the applicable provisions in OAR 333-061-0036(10) and report sample results to DWS representative of 10 sampling locations no later than 60 days after the date of service for this Order.

GENERAL PROVISIONS AND CIVIL PENALTIES

This Order does not constitute a waiver, suspension or modification of the requirements of the Oregon Drinking Water Quality Act (ORS 448.115 to 448.290) and Oregon Administrative Rules OAR 333-061-0005 to 333-061-0272, which remain in full force and effect.

This Order does not relieve Water Supplier of any responsibilities or liabilities established pursuant to any applicable federal, state, or local law or regulation.

Issuance of this Order is not an election by DWS to forgo any civil actions authorized under the Oregon Drinking Water Quality Act.

Failure to comply with any of the requirements in this Order by the specified due date may result in additional enforcement action, which could include assessment of civil penalties in the amount of \$100 per day per violation (OAR 333-061-0090). For example, if DWS issues a Notice of Intent to Impose Civil Penalty on November 15, 2025 for failure to report lead and copper monitoring according to this Order, the proposed civil penalty could be as much as \$6,000.

Pursuant to ORS 448.990(2), violations of a rule of the Oregon Health Authority may be a crime in Oregon and punishable as a Class A misdemeanor.
