RE: Failure to comply with Notice of Violation and Administrative Order and possible civil penalties.

On March 4, 2020, the Oregon Health Authority, Public Health Division, Center for Health Protection, Drinking Water Services (DWS) issued an administrative order (Order) to London Water Coop. (hereinafter "Water Supplier") due to violations at the public water system (hereinafter "Water System"), identified by PWS ID# OR4100239 and serving homes along Joe Geer, London and Shoestring Roads, south of Cottage Grove, Oregon.

Specifically, the Order required Water Supplier to submit construction plans to DWS no later than October 31, 2020, according to the deadline specified in corrective action plans provided by Water Supplier. The date for submission of construction plans has passed without completion of the required action and without Water Supplier demonstrating progress toward completing the required action.

Water Supplier is now at risk of being assessed civil penalties in the amount of \$50 for every distinct rule violation and for every day the Water System is in violation of a rule (OAR 333-061-0090).

In the event Drinking Water services assesses a civil penalty against Water Supplier, you will be notified in writing and Water Supplier will be provided an opportunity for a hearing pursuant to the Oregon Administrative Procedures Act (ORS chapter 183).

To avoid being assessed civil penalties, Water Supplier must immediately submit construction plans to DWS for replacement or reconstruction of the existing surface water intake and treatment system at the Water System.

Respectfully,

A handwritten signature in black ink, appearing to read "BK Daniels", is written over a light gray rectangular background.
