RE: Notice of failure to correct significant deficiencies at the Grants Pass Mobile Home Park public water system

Records indicate Grants Pass Mobile Home Park, LLC owns the public water system located at 7001 Rogue River Highway in Grants Pass, Oregon. The Grants Pass Mobile Home Park water system (hereinafter "Water System") is a community public water system identified by ID# OR4101175 that serves approximately 100 people and is subject to regulation according to the Oregon Drinking Water Quality Act (Oregon Revised Statutes 448.115 to 448.290) and Oregon Administrative Rule (OAR) 333-061-0005 to OAR 333-061-0272. Grants Pass Mobile Home Park, LLC (hereinafter "Water Supplier") is therefore a water supplier as defined in ORS 448.115(12) and OAR 333-061-0020(150) and have specific responsibilities as defined in OAR 333-061-0025.

The Oregon Health Authority, Drinking Water Services (DWS) has reviewed the operation of the Water System. This review has found that Water Supplier is not in compliance with OAR 333-061-0076(5) and therefore not meeting its responsibilities as a water supplier.

OAR 333-061-0076(5) requires water suppliers to correct significant deficiencies or to be in compliance with an approved corrective action schedule. Water Supplier has not reported that significant deficiencies identified at the Water System were corrected by the November 22, 2019 due date. Two deficiencies, the lack of a screened vent for a finished water storage reservoir and the lack of a screen covering a vent for a groundwater well are considered direct pathways for contamination to enter a water system and are priorities for correction.

The failure to correct these deficiencies by the due date following the June 19, 2019 sanitary survey is a violation of OAR 333-061-0076, sections (5) and (7).

Water Supplier must submit written verification to me that this deficiency is corrected within 30 days of the date of this notice.

If Water Supplier does not comply with the deadline specified in this letter, the continued non-compliance may result in additional enforcement action, which could include the assessment of civil penalties in the amount of \$50 for every distinct rule violation and for every day the Water System is in violation of a rule as prescribed by OAR 333-061-0090. Please contact me at (971) 673-0407 if you have any questions about the compliance action specified in this letter.

Respectfully,

Brad K. Daniels
