RE: Violation of the standard for *E. coli* bacteria at the Liberal Ranchos HOA public water system, ID# 06054

Dear Grant Cristofolo,

Recent samples reported for your water system indicate coliform bacteria in the drinking water caused a violation of the standard for *E. coli* bacteria. The presence of these bacteria indicates that the water may be contaminated with human or animal wastes. Human pathogens in these wastes can cause short-term effects, such as diarrhea, cramps, nausea, headaches, or other symptoms. They may pose a greater health risk for infants, young children, the elderly, and people with severely compromised immune systems.
OAR 333-061-0097

Please continue consultation with Kim Holtman or Joel Ferguson at the Clackamas County Health Department so that you can disinfect the water system and abate the contamination as quickly as possible.

- 1) You must also issue public notice to customers within 24 hours if not completed previously and submit a copy to DWS at compliance.dw@odhsoha.oregon.gov within 10 days of the date of this letter. An appropriate public notice template is available online at <https://www.oregon.gov/public-notices>. Please complete the template with information for your water system and distribute the notice to customers as soon as possible.
