NOTICE OF VIOLATION AND
ADMINISTRATIVE ORDER

Carol Adler, you have at all times mentioned herein owned and operated, and continue to own and operate, the Rogue Valley Stations public water system (hereinafter "Water System") located at 461 Valley View Road W in Ashland, Oregon. The Water System is a transient non-community public water system that serves approximately 100 people and is subject to regulation under Oregon Revised Statutes 448.115 to 448.290 and Oregon Administrative Rules 333-061-0005 to 333-061-0272.

Carol Adler (hereinafter "Water Supplier"), you are therefore a water supplier as defined in Oregon Revised Statute (ORS) 448.115(12) and Oregon Administrative Rule (OAR) 333-061-0020, and as a water supplier, has specific responsibilities that are identified in OAR 333-061-0025.

Pursuant to its authority established in ORS 431A.010 and ORS 448.255, the Oregon Health Authority, Public Health Division, Center for Health Protection, Drinking Water Services (DWS) has investigated the operation of the Water System and found that Water

Supplier did not report monitoring for nitrate. Water Supplier is therefore unable to assure its water users that the water is sufficiently free from contaminants such that individuals will not be exposed to disease or harmful physiological effects (ORS 448.115(8)). This represents a potential public health hazard.

This Notice of Violation and Administrative Order (Order) is being issued to Water Supplier for the specific violations of the Oregon Drinking Water Quality Act (ORS 448.115 to ORS 448.290) and rules found during DWS' investigation as described below.

DESCRIPTION OF RULE VIOLATIONS

1. OAR 333-061-0025(1) requires water suppliers to routinely collect and submit water samples for laboratory analyses at the frequencies prescribed by OAR 333-061-0036. OAR 333-061-0036(2)(c) requires monitoring for nitrate at public water systems, but Water Supplier did not report sample results to DWS, as required by OAR 333-061-0036(2)(c), which constitutes a violation of OAR 333-061-0025(1) if samples were in fact not collected.
2. OAR 333-061-0036(2)(c) requires water suppliers to monitor for nitrate at least once every year at public water systems. Additionally, OAR 333-061-0040(1)(b)(A) requires water suppliers to report monitoring required by OAR 333-061-0036 to DWS within 10 days of the end of the required monitoring period. Water Supplier has not reported nitrate monitoring for the Water System since reporting a sample collected on November 14, 2017. This constitutes a violation of OAR 333-061-0036(2)(c), or a violation of OAR 333-061-0040(1)(b)(A) if monitoring was conducted but not reported.

ACTIONS REQUIRED TO ACHIEVE COMPLIANCE

Water Supplier is required to conduct the remedial actions described below which, if taken within the time specified in this Order, will effect compliance with the rule(s) violated (ORS 448.255(3)).

- Compliance Action No. 1: Water Supplier must immediately monitor for nitrate at the Water System, according to OAR 333-061-0036(2)(c) and report the monitoring results to DWS no later than June 30, 2020.

GENERAL PROVISIONS AND CIVIL PENALTIES

This Order does not constitute a waiver, suspension or modification of the requirements of the Oregon Drinking Water Quality Act (ORS 448.115 to 448.290) and Oregon Administrative Rules OAR 333-061-0005 to 333-061-0272, which remain in full force and effect.

This Order does not relieve Water Supplier of any responsibilities or liabilities established pursuant to any applicable federal, state, or local law or regulation.

Issuance of this Order is not an election by DWS to forgo any civil actions authorized under the Oregon Drinking Water Quality Act.

Failure to comply with any of the requirements in this Order by the specified due date may result in additional enforcement action, which could include assessment of civil penalties in the amount of \$50 per day per violation (OAR 333-061-0090). Civil penalties may be assessed beginning the day following the date of service of this Order and accruing through the date when DWS issues a Notice of Intent to Impose Civil Penalty. For example, if DWS issues a Notice of Intent to Impose Civil Penalty on July 1, 2020 for failure to monitor for nitrate according to this Order, the proposed civil penalty could be as much as \$3,000.

Pursuant to ORS 448.990(2), violations of a rule of the Oregon Health Authority may be a crime in Oregon and punishable as a Class A misdemeanor.

If you withdraw a request for hearing, or notify DWS or the administrative law judge that you will not appear or fail to appear at a scheduled hearing, DWS may issue a final order by default.
