NOTICE OF VIOLATION AND ADMINISTRATIVE ORDER

To: RSG Forest Products, Inc.

Robert T. Sanders, President 1455 SW Broadway, Suite 1500

Portland, OR 97201

RSG Forest Products, Inc. has at all times mentioned herein owned and operated, and continues to own and operate, the Olympic Forest Products water system (hereinafter "Water System") located at 69480 Banzer Road near Mist, Oregon. The Water System is a non-transient non-community public water system serving approximately 80 people and is subject to regulation under Oregon Revised Statutes 448.115 to 448.290 and Oregon Administrative Rules 333-061-0005 to 333-061-0272.

RSG Forest Products, Inc. (hereinafter "Water Supplier") is therefore a water supplier as defined in Oregon Revised Statute (ORS) 448.115(12) and Oregon Administrative Rule (OAR) 333-061-0020, and as a water supplier, has specific responsibilities that are identified in OAR 333-061-0025.

Pursuant to its authority established in ORS 431A.010 and ORS 448.255, the Oregon Health Authority, Public Health Division, Center for Health Protection, Drinking Water Services (DWS) has investigated the operation of the Water System.

DWS found, during its investigation, that Water Supplier did not install treatment for maintaining a disinfectant residual or take equivalent corrective action after multiple coliform investigations were triggered within the period specified in OAR 333-061-0032(6)(g). Water Supplier is therefore not operating the Water System in compliance with the Oregon Administrative Rules.

This Notice of Violation and Administrative Order (Order) is being issued to Water Supplier for the specific violations of the Oregon Drinking Water Quality Act (ORS 448.115 to ORS 448.290) and rules found during DWS' investigation as described below.

#### DESCRIPTION OF RULE VIOLATIONS

1. OAR 333-061-0032(6)(g) requires, in part, water suppliers to install treatment for disinfectant residual maintenance when three or more coliform investigations as described in OAR 333-061-0078 are triggered within a twelve-month period. Treatment must be installed within six months unless an alternate schedule is approved. The presence of coliform bacteria in drinking water at the Water System triggered a third coliform investigation on August 31, 2020 and as of March 1. 2021 the required water treatment was not installed nor was an alternate schedule approved. This constitutes a violation of OAR 333-061-0032(6)(g).

## ACTIONS REQUIRED TO ACHIEVE COMPLIANCE

Water Supplier is required to conduct the remedial actions described below which, if taken within the time specified in this Order, will effect compliance with the rule(s) violated (ORS 448.255(3)).

- 1. Water Supplier must initiate the process to install treatment for disinfectant residual maintenance or an equivalent corrective action.
  - Water Supplier must submit to DWS complete construction plans for treatment to produce and maintain a disinfectant residual or its equivalent no later than April 30, 2022.

- The construction plans must meet all the applicable requirements of OAR 333-061-0060 and have sufficient detail to completely and clearly illustrate what will be constructed.
- 2. Water Supplier must complete construction and installation of the treatment for disinfectant residual maintenance or its equivalent as specified in Compliance Action No. 1, no later than June 30, 2022.
  - o Construction must be completed in accordance with plans approved by DWS.
  - Construction of all improvements or modifications at the Water System must meet the applicable construction standards specified in OAR 333-061-0050.

#### GENERAL PROVISIONS AND CIVIL PENALTIES

This Order does not constitute a waiver, suspension or modification of the requirements of the Oregon Drinking Water Quality Act (ORS 448.115 to 448.290) and Oregon Administrative Rules OAR 333-061-0005 to 333-061-0272, which remain in full force and effect.

This Order does not relieve Water Supplier of any responsibilities or liabilities established pursuant to any applicable federal, state, or local law or regulation.

Issuance of this Order is not an election by DWS to forgo any civil actions authorized under the Oregon Drinking Water Quality Act.

Failure to comply with any of the requirements in this Order by the specified due date may result in additional enforcement action, which could include assessment of civil penalties in the amount of \$50 per day per violation (OAR 333-061-0090). Civil penalties may be assessed beginning the day following the date of service of this Order and accruing through the date when DWS issues a Notice of Intent to Impose Civil Penalty. For example, if DWS issues a Notice of Intent to Impose Civil Penalty on May 1, 2022 for failure to submit construction plans to DWS according to this Order, the proposed civil penalty could be as much as \$3,000.

Pursuant to ORS 448.990(2), violations of a rule of the Oregon Health Authority may be a crime in Oregon and punishable as a Class A misdemeanor.
