NOTICE OF VIOLATION AND
ADMINISTRATIVE ORDER

To: George Jay Williamson
JW Rock, LLC
Trask River RV Park
26005 Trask River Road
Tillamook, OR 97141

You, George Jay Williamson, have at all times mentioned herein owned and operated, and continue to own and operate, the Trask River RV Park public water system (hereinafter “Water System”) located at 26905 Trask River Road, east of Tillamook, Oregon. The Water System is a transient non-community water system serving approximately 25 people and is subject to regulation under Oregon Revised Statutes 448.115 to 448.290 and Oregon Administrative Rules 333-061-0005 to 333-061-0272.

You, George Jay Williamson (hereinafter “Water Supplier”), are therefore a water supplier as defined in Oregon Revised Statute (ORS) 448.115(12) and Oregon Administrative Rule (OAR) 333-061-0020, and as a water supplier, have specific responsibilities that are identified in OAR 333-061-0025.

Pursuant to its authority established in ORS 431A.010 and ORS 448.255, the Oregon Health Authority, Public Health Division, Center for Health Protection, Drinking Water Services (DWS) has investigated the operation of the Water System.

DWS found, during its investigation that Water Supplier has not reported the effectiveness of disinfection treatment operated at the Water System since November 19, 2019. Water Supplier is therefore unable to assure its water users that the water is sufficiently free from contaminants such that individuals will not be exposed to disease or harmful physiological effects (ORS 448.115(8)). This represents a potential public health hazard.

This Notice of Violation and Administrative Order (Order) is being issued to Water Supplier for the specific violations of the Oregon Drinking Water Quality Act (ORS 448.115 to ORS 448.290) and rules found during DWS' investigation as described below.

DESCRIPTION OF RULE VIOLATIONS

1. OAR 333-061-0036(5)(b)(B) requires, in part, water suppliers to measure water quality parameters every day and to calculate disinfection effectiveness (CT) at public water systems supplied by a surface water source where filtration treatment is provided. Additionally, OAR 333-061-0040(1)(d) requires water suppliers to report the results of any test, measurement or analysis required by OAR 333-061-0036(5)(b) to DWS within 10 days after the end of the month. Water Supplier has not reported CT calculations for the Water System since reporting calculations for the month of October 2019. This constitutes a violation of OAR 333-061-0036(5)(b)(B), or a violation of OAR 333-061-0040(1)(d) if the required measurements and calculations were conducted but not reported.

ACTIONS REQUIRED TO ACHIEVE COMPLIANCE

Water Supplier is required to conduct the remedial actions described below which, if taken within the time specified in this Order, will effect compliance with the rule(s) violated (ORS 448.255(3)).

1. Water Supplier must immediately measure water quality parameters and calculate CT according to OAR 333-061-0036(5)(b) at the Water System and continue to complete these actions every day the Water System produces drinking water.

- The measurements and the results of calculations specified in this compliance action must be reported to DWS no later than December 10, 2020 and thereafter every month according to OAR 333-061-0040(1)(d).
- Water Supplier will have complied with this Order after six consecutive months of measurements and CT calculations are reported to DWS according to this Order.

GENERAL PROVISIONS AND CIVIL PENALTIES

This Order does not constitute a waiver, suspension or modification of the requirements of the Oregon Drinking Water Quality Act (ORS 448.115 to 448.290) and Oregon Administrative Rules OAR 333-061-0005 to 333-061-0272, which remain in full force and effect.

This Order does not relieve Water Supplier of any responsibilities or liabilities established pursuant to any applicable federal, state, or local law or regulation.

Issuance of this Order is not an election by DWS to forgo any civil actions authorized under the Oregon Drinking Water Quality Act.

Failure to comply with any of the requirements in this Order by the specified due date may result in additional enforcement action, which could include assessment of civil penalties in the amount of \$50 per day per violation (OAR 333-061-0090). Civil penalties may be assessed beginning the day following the date of service of this Order and accruing through the date when DWS issues a Notice of Intent to Impose Civil Penalty. For example, if DWS issues a Notice of Intent to Impose Civil Penalty on December 11, 2020 for failure to report water quality measurements and CT calculations according to this Order, the proposed civil penalty could be as much as \$1,500.

Pursuant to ORS 448.990(2), violations of a rule of the Oregon Health Authority may be a crime in Oregon and punishable as a Class A misdemeanor.
