

State of Oregon Drinking Water Section  
**Monthly UV Disinfection Report for Ground Water Systems Requiring 4-log Viral Inactivation**

System Name Salmon Run Golf Course

PWS ID# 41 95127

Month/Year 12/2022 Entry Point: A

Required Minimum Dose 186 mJ/cm<sup>2</sup>

Date	Time	Source(s) in use	Any UV Alarms? (Y/N)	Notes
1		Well, SRC-AA		
2		Well, SRC-AA		
3		Well, SRC-AA		
4		Well, SRC-AA		
5		Well, SRC-AA		
6		Well, SRC-AA		
7		Well, SRC-AA		
8	09:05	Well, SRC-AA	N

15		Well, SRC-AA		
16		Well, SRC-AA		
17		Well, SRC-AA		
18		Well, SRC-AA		
19		Well, SRC-AA		
20		Well, SRC-AA		
21		Well, SRC-AA		
22	13:33	Well, SRC-AA	N	
23		Well, SRC-AA		
24		Well, SRC-AA		
25		Well, SRC-AA		
26		Well, SRC-AA		
27		Well, SRC-AA		
28		Well, SRC-AA		
29	11:48	Well, SRC-AA	N	
30		Well, SRC-AA		
31		Well, SRC-AA		

Was the minimum UV dose ever less than the required dose of 186 mJ/cm<sup>2</sup>? Or was the alarm ever triggered? Yes  No

If yes, was a boil notice issued, and DWS contacted? If not, please explain: See above.

**This form is for groundwater systems where no residual disinfection has been required to prevent regrowth of pathogens in the pipes.**

Date & time UV reactor failed:

// am/pm

Date & time it was returned to service:

// am/pm
