ADDENDUM

4101449

to

Marshland Water Association Water Certificate

Each active Water Share will have to have in place:

- 1) A back flow device (Cross Connection) where applicable; and,
- 2) Be responsible for its installation, testing and service in accordance with the rules of The State of Oregon and the Marshland Water Association.

Pertinent information on the Cross Connection Program may be obtained from the Marshland Water Association.

MARSHLAND WATER ASSOCIATION

RULES

for

Cross Connection

The Marshland Water Association will oversee but will not be financially responsible for the installation, testing, and servicing of the Cross Connection Device.

The Marshland Water Association will give a sixty (60) day notice of noncompliance before taking any action, which will be to shut off service.
