

HIDDEN MEADOWS WATER ASSOCIATION, INC.
CROSS CONNECTION ORDINANCE

01464

I, Michael Gaumer, president of Hidden Meadows Water Association, Inc., by executive order, have enacted immediately this 30th day of January 2008 this cross connection ordinance.

Hidden Meadows Water Association, Inc. consists of 34 residential homes and 1 common area irrigation system; each home is equipped with a double check valve on its irrigation system. The Association shall require annual testing of all backflow valves on the associations system. Any valves that do not pass its initial test shall be repaired or replaced in a timely manner. Any future double check valves installed shall be maintained to the current standards. Reduced pressure relief valves, pressure vacuum breakers and atmospheric vacuum breakers are allowed on the system and it is the members' responsibility to maintain each of their devices. The Association's master list designates a hazard level, currently there are no "high hazard" customers on the system. The Association will maintain a copy of each backflow devices annual inspection results. Any additional future cross connections shall be repaired and documented.
