**Re: Cooper Mountain Reservoir No. 2 and Associated Improvements (PR#153-2019)
City of Beaverton (PWS ID#00081)
Final Approval**

Dear Mr. McKillip:

On June 1, 2023, our office received confirmation that the above project was completed according to the conditions set forth in the December 17, 2019 conditional approval letter. As-built drawings were provided.

Final approval is issued at this time, and the facilities are approved for use.

The system will need to work with Nicole Alfafara (copied on this letter) to activate the well once it is ready to put into service. This will also trigger several chemical monitoring schedules, including two 6-month rounds of lead and copper sampling.

If you have any questions, please feel free to call me at (971) 201-9794.

Sincerely,

Carrie Gentry, PE
Regional Engineer
Drinking Water Services
