Re: **Master Plan Approval (PR# 153-2024)**
Mapleton Water District (PWS ID# 00507)

Dear Vanessa:

Thank you for your submittal to the Oregon Health Authority's Drinking Water Services (DWS) of plan review information for the Water System Master Plan for the Mapleton Water District. On December 4, 2024, our office received a plan review fee of \$825 and a copy of the Water System Master Plan. On January 9, 2025, our office also received a Seismic Risk Assessment and Mitigation Plan (SRAMP) addition to the master plan.

The Master Plan represents a 20-year planning horizon out to the year 2045. The plan includes system goals and description, future demand estimates, engineering evaluation, evaluations of options to meet future demand, financing, and list of recommended projects and cost estimates. Upon review of the Master Plan, it appears the elements required in Oregon Administrative Rules (OAR) 333-061-0060(5) have been addressed.

Please note that OAR 333-061-0060 contains plan submission and review requirements for all major water system additions or modifications. Construction plans and specifications must be submitted to and approved by DWS before construction begins.

If you have any questions, please feel free to call me at 541-393-4374.

Sincerely,

B Call
