Re: **New Chlorination (PR#2023-39)**
City of Oakland (PWS#00581)
Preliminary Approval

Dear Jim:

Thank you for your submittal of plan review information for the new chlorination point for the City of Oakland to the Oregon Health Authority's Drinking Water Services (DWS). On May 11, 2023, our office received the construction plans and specifications, and later the plan review fee of \$825. At this time DWS grants preliminary approval.

This project includes the construction of a new chlorination point in the water treatment plant at the filtration beds.

The project will be granted final approval subject to the City of Oakland providing written verification that the project was completed per plans and OAR 333-061-0050 Construction Standards.

If you have any questions or would like this in an alternate format, please feel free to call me at (541) 650-4868 or e-mail me at rebecca.a.templin@oha.oregon.gov.

Sincerely,

Rebecca Templin, P.E.
Regional Engineer
Drinking Water Services
