Re: **Master Plan (PR#73-2024)**
WS Name (PWS ID#00581)
Master Plan Concurrence

Dear Jim Hart:

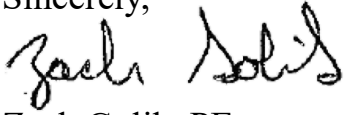

Thank you for your resubmittal to the Oregon Health Authority's Drinking Water Services (DWS) of plan review information for the Water System Master Plan for the City of Oakland. On September 13th, 2024, DWS received a resubmitted finalized copy of the City of Oakland, Water Master Plan. A plan review fee of \$4,125 was also received by the DWS Portland office.

The Master Plan should represent a 20-year comprehensive planning horizon out to the year 2044, based on plan submittal date. The resubmitted plan included an existing water system description, future demand estimates, engineering evaluation, evaluations of options to meet future demand, financing, and list of recommended projects and cost estimates. A seismic risk assessment and mitigation plan was included. Upon review of the Master Plan, it appears the elements required in Oregon Administrative Rules (OAR) 333-061-0060(5) have generally been addressed. The DWS generally concurs with revised City master plan and their engineers' supplemental responses.

With review of the City's master plan, the City's water source and distribution system were noted as having multiple issues. The City of Oakland will want to coordinate closely with the DWS over the next 20 years to ensure the continued compliance and water safety for their customers.

If you have any questions, please feel free to call me at 541-231-9077. I am happy to have a conference call or virtual meeting as needed or desired.

Sincerely,

A handwritten signature in black ink that reads "Zach Golik". The signature is written in a cursive, slightly slanted style.

Zach Golik, PE
