**Re: Twin Oaks Reservoir #2 (PR#161-2024)  
City of Riddle (PWS ID#00706)  
Conditional Approval**

Dear Robert Tilton:

Thank you for your submittal to the Oregon Health Authority's Drinking Water Services (DWS) of plan review information for the Twin Oaks Reservoir #2 for City of Riddle. On December 17<sup>th</sup>, 2024, DWS received specifications, plans, and a plan review fee of \$3,300.

The project includes the replacement of the existing metal Twin Oaks Reservoir with a new 257,168-gallon steel reservoir on a new concrete base. The work will be located on the northeast side of Riddle, Oregon.

The plans are approved subject to the following conditions:

*Finished water storage-*

- The outlet ends of the drain and overflow must be fitted with angle-flap valves or equivalent protection and shall discharge to a watercourse or storm drain capable of accommodating the flow with a vertical separation between the bottom of the pipe and top of the receiving body or structure. Refer to OAR 333-061-0050(6)(a)(M).

**Until we receive verification that the conditions have been met and final approval has been issued, the new Twin Oaks Reservoir is not approved for use.** If substantial changes are made, a set of as-built drawings must be submitted. Documentation demonstrating how the above conditions were met should reference Plan Review #161-2024 and can be emailed to me at [zachariah.cunningham-golik@oha.oregon.gov](mailto:zachariah.cunningham-golik@oha.oregon.gov).

If you have any questions, please feel free to call me at 541-231-9077.

Sincerely,

A handwritten signature in black ink that reads "Zach Golik". The signature is written in a cursive, slightly slanted style.

Zach Golik, PE
