**Re: Replacement Well #2 (PR#48-2023)
Circle C Improvement District (PWS ID#00861)
Final Approval**

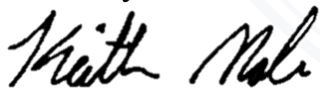

Dear Jim:

On June 16, 2025 our office received confirmation that the above project was completed according to the plans submitted and conditions set forth in the May 7, 2025 conditional approval letter.

This verification completes the plan review requirements. Final approval is issued at this time, and the well is approved for use. If you have any questions, please feel free to call me at 503-939-1322 or email me at keith.male@oha.oregon.gov.

Please note that quarterly monitoring for radionuclide – uranium will be required for 4 consecutive quarters at SRC-BB Well #6 (the new well associated with this project) as the initial sample was between the detection limit and one-half of the MCL.

Sincerely,

Keith Male, PE
Regional Engineer
Drinking Water Services
