**Re: New Storage Tanks and Chlorination System, Plan Review #50-2020, OPRD Minam Rec Area - North, PWS ID #4191077
Final Approval**

Dear Tess:

Thank you for providing confirmation on May 27, 2023, that a raw water sample tap was installed, showing that the project met OHA construction standards. The project consisted of installing four Flotec pressure tanks to replace the existing redwood tank and installing a new hypochlorination system with a Stenner feed pump. A site visit conducted on May 10, 2023 confirmed the pertinent details of the installation. Final approval is granted for the project.

If you have any questions or would like this in an alternate format, please feel free to email me at william.h.goss@oha.oregon.gov or call me at (541) 966-0900.

Sincerely,

William Goss, P.E.
Regional Engineer
