Re: **Cartridge Filtration System (PR#28-2010)**
Breitenbush Hot Springs (PWS ID#93461)
Final Approval

Dear Mr. Moore:

On February 23, 2015, our office received confirmation that the above project was completed according to the plans submitted. A field visit on May 18, 2015, confirmed that the conditions of the March 2, 2011 conditional approval letter were met.

Final approval for the cartridge filtration plant is issued at this time, and the facility is approved for use. Please note that the final plan review approval does not include the reservoir (conditional approval letter issued on May 27, 2011.) If the water system intends to utilize this reservoir in the future, then plan review will need to be concluded. This will include payment of a separate plan review fee (currently \$600) for the reservoir project and an engineer's statement that the reservoir was constructed according to the submitted plans.

If you have any questions, please feel free to call me at (971) 673-0191.

Sincerely,

A handwritten signature in black ink, appearing to read "Carrie Gentry".

Carrie Gentry, PE
Regional Engineer
Drinking Water Services
