Re: Residual Chlorination – PR# 97-2022  
Olympic Forest Products – WS # [94882](#)  
Final Approval

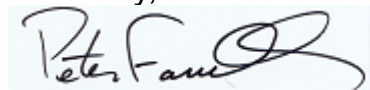

Dear Mr. Feige:

On 21 October 2024 our office received confirmation that the above project was completed according to the plans submitted and conditions set forth in the conditional approval letter from 13 June 2022.

Now that the system will be chlorinated, Olympic Forest Products will now need to sample for Disinfection Byproducts regularly. Daniel Osborn of Columbia County, cc'd here, can assist with how to monitor for that contaminant. He can be reached at 971.757.5031.

This verification completes the plan review requirements. Final approval is issued at this time, and the facility is approved for use. If you have any questions, please feel free to call me at 971.201.6428.

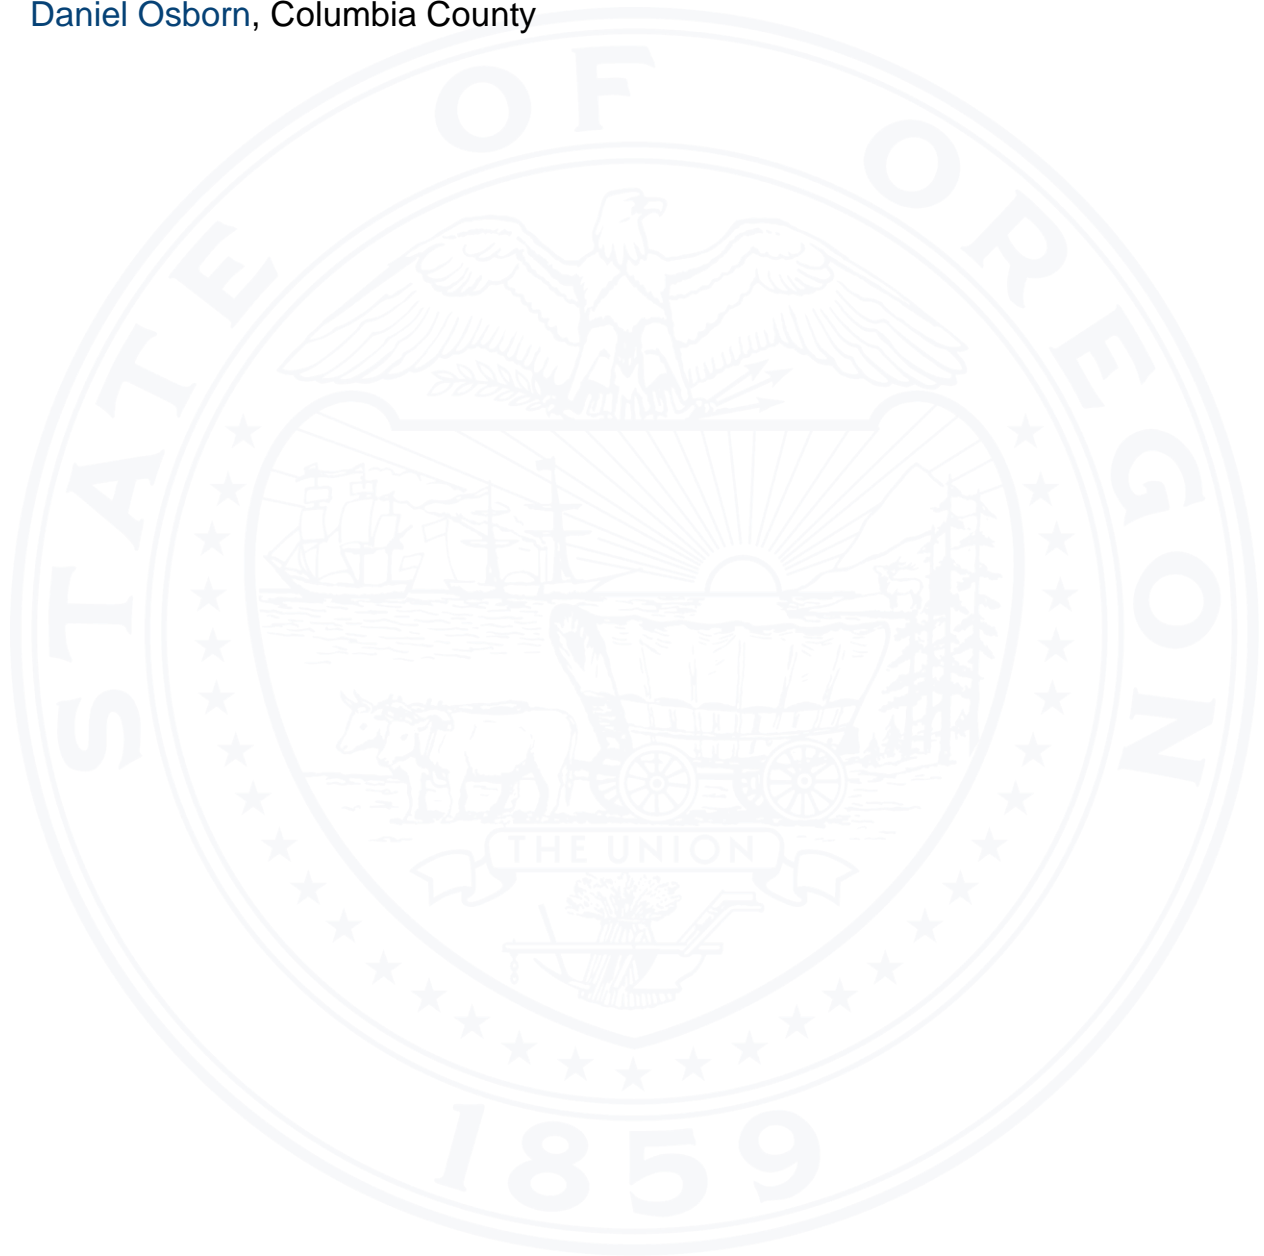

Sincerely,

Pete Farrelly, Regional Engineer  
OHA-Drinking Water Services

cc:

- Anna Boutwell, Project Coordinator, AKS Engineering & Forestry, LLC
- Paul D. Stull III, Project Coordinator, AKS Engineering & Forestry, LLC
- Daniel Osborn, Columbia County
