

Application for Waiver from Construction Standards for Public Water Systems

Water System Name Adelsheim Vineyards PWS ID 41-95668
 Project or Facility Well County Yamhill
 Need for waiver identified: Water System Survey Date of Survey
 Plan Review # 144-2021

Construction standard requested to be waived: OAR 333-061-0050 2aE

As provided under OAR 333-061-0055, the Department may grant waivers from the construction standards prescribed by these rules:

- (a) When it is demonstrated to the satisfaction of the Department that strict compliance with the rule would be highly burdensome or impractical due to special conditions or causes; and
- (b) When the public or private interest in the granting of the waiver is found by the Department to clearly outweigh the interest of the application of uniform rules; and
- (c) When alternate measures are provided which, in the opinion of the Department, will provide adequate protection to the health and safety of the public including the ability to produce water which does not exceed the maximum contaminant levels listed in rule 333-061-0030.

Describe situation that conflicts with the standard. Well C is located adjacent to a vineyard where checmicals are sprayed on the vines to keep the vines healthy and prevent spread of disease.

Describe why meeting the standard is highly burdensome or impractical. The well is existing and not spraying the vines around the well would put them at risk of disease and that disease spreading throughou the vineyard.

Describe proposed alternate measure that provide adequate protection to public health and safety. The well is properly constructed in a confined aquifer.
