**Re: Water System Survey Significant Deficiencies/Rule Violations
Cedarhurst Improvement Club, PWS# 4100280**

Dear Mr. Jones:

A water system survey was completed for Cedarhurst Improvement Club on 12-9-14 identifying significant deficiencies and rule violations to be corrected. A letter and copy of the survey report were mailed to your attention on 8-6-15. Oregon Administrative Rule (OAR) 333-061-0076(6) and OAR 333-061-0032(6)(e) requires water systems that use groundwater sources to have completed corrective action or be in compliance with a Department-approved corrective action plan within 120 days of receiving written notice of a significant deficiency.

The Cedarhurst Improvement Club was to complete corrective action by 6-12-15 or have a Department-approved corrective action plan with a reasonable timeframe to complete the corrective action. To date, this information has not been received. As a result, the Cedarhurst Improvement Club is in violation and is now subject to formal enforcement which could include the assessment of civil penalties. In order to return to compliance and avoid formal enforcement action, your corrective action plan to the water system survey report **must be received and approved by 5-27-16**. Please send information to this office. A copy of the survey letter is enclosed for your reference.

Please contact me by phone at 503-742-5367 or via email at joelfer@clackamas.us if you have questions or comments.

I appreciate your immediate attention to this matter.

Sincerely,

Joel Ferguson, R.E.H.S.
