**Re: Installation of water storage without plan review
Sleepy Hollow WD, PWS ID# 00629**

Dear Mr. Evans:

According to Drinking Water Program (DWP) records, Sleepy Hollow WD installed two water storage reservoirs at your water system without going through the plan review process. DWP requires information regarding this upgrade, *e.g.*, all materials in contact with water must be NSF approved, reservoirs must be properly bedded, etc.

Please complete the information requested and submit it to the DWP **within 30 calendar days**. There may be a fee for the plan review. *E.g.*, Storage is a \$600 fee for a community water system.

If you have any questions, please contact me via email at peter.r.farrelly@state.or.us or by phone at the number listed above.

Sincerely,

Pete Farrelly, PE
