Re: Corrective Action Required to Address Source Water Fecal Contamination at SRC-AB for Trail Community Church (PWS 91502)

Dear Mr. Evenson,

The Oregon Health Authority -- Drinking Water Services (DWS) verified that recent monitoring has shown fecal contamination at your groundwater source. A letter notifying you that corrective action is required was mailed to your attention on March 7, 2014. Oregon Administrative Rule (OAR) 333-061-0076(6) and OAR 333-061-0032(6)(e) require water systems that use groundwater sources to complete corrective action or be in compliance with a Department-approved corrective action plan within 120 days of receiving notice of source water fecal contamination.

Trail Community Church was to have completed corrective action by July 11, 2014 or have a Department-approved corrective action plan. To date, this information has not been received. As a result, Trail Community Church is in violation and is now subject to formal enforcement which could include the assessment of civil penalties. In order to return to compliance and avoid formal enforcement action, you must complete corrective action or be on an approved schedule by August 28, 2014. A copy of the March 7, 2014 letter is enclosed for your reference.

Since Trail Community Church failed to take action within the required timeframe, you **must provide notification** to all persons served by the water system as soon as practical and by no later than 30 days after the date of this letter. The public notice must include the mandatory language and corrective action taken (if any). You are also required to issue a repeat notice every three months until all deficiencies are corrected or you are in compliance with an approved corrective action plan. A copy of the Tier 2 public notice instructions and template are enclosed. A copy of the completed public notice must be sent to the Oregon Health Authority -- Drinking Water Services, PO Box 14350, Portland, OR 97293-0350 within ten (10) days after completion to certify that Trail Community Church has fully complied with the distribution and public notification requirements.

Please feel free to contact me if you have any questions.
